Re: Notice of Intent to Conduct Operations  
Wild Mountain Lode Mining Claims  
UMC Nos. 257797, 257798, and 290163  
T.2S., R.25E., Secs. 11 and 14, SLM

Dear Mr. Richens:

On September 21, 1987, we received the referenced notice of intent for road construction and drilling on the subject mining claims. On September 30, 1987, in accordance with your conversations with Al Burch of my staff, we received a supplement to your notice of intent to complete the filing requirements under 43 CFR 3809.1-3.

Your notice on intent to conduct operations is hereby accepted. To provide for the maximum protection of other resources in the area, please adhere closely to the operating requirements of 43 CFR 3809.2 and reclamation requirements outlined in 43 CFR 3809.1-3(d). Additionally, to provide for public health and safety and to prevent excessive erosion, we request that you do the following:

1. Prior to any blasting, please notify the Diamond Mountain Resource Area minerals staff. We would appreciate notice at least 24 hours in advance of blasting operations.
2. To help prevent any accidents, keep vehicular travel on steep grades to a minimum, especially on the road to be constructed on the north side of Wild Mountain.
3. As part of your reclamation obligation, we ask that you construct water bars along the road on the north side of Wild Mountain. BLM staff will be made available during reclamation to provide information on construction techniques and to discuss overall reclamation.

4. To meet our regulatory obligations, we ask that we be allowed access at all times to the subject claims. Periodic inspections of mining claim operations are necessary to ensure compliance with applicable laws (see 43 CFR 3809.3-2).

If you have any questions, you may contact Al Burch at (801) 789-1362.  
Thank you for your cooperation.

Sincerely,

*[Handwritten signature: Ronald S. Trogstad]*
